A Sacred Tome of Demonosophy

Message from Priestess Akelta

The magick circle is an ancient and powerful tool. It has many uses, especially when it comes to working with the Demons and the Dark Lords. In past times the circle was used to protect the magician from the entity that was being called forth. In Demonosophy we take a very different approach. We walk with the demons as gods and revere them as divine beings. We work with them from a place of honour and respect.

To us the circle is a sacred construct that is meant to call in the energies of the dark lords to help empower the space with their energies. By calling in the powerful elements and the demons connected to those elements we can raise the vibrations of the space and assist with communication and connection.

The circle is designed to clear the space of any negative entities or energies and create a sacred meeting place where you can meet and converse with the demon you call without being interrupted. The circle also protects the space from any entities that might be curious or drawn to the ritual space. When you raise the energies vibrations and call such a powerful being to you it can invoke the curiosities of hostile beings that are around you.

Having the circle protects you from these beings and allows you to connect and work with the demon you have called, uninterrupted. The circle can also be a way to honour the demon and claim the space that you will be working in to give offerings or seek council with the demon. They are very powerful magickal tools.

The Sacred Magick Circle of Demonosophy

This is a basic circle ritual that can be used before any ritual to raise the vibrations and claim sacred space. This is a powerful circle that calls in the Dark Lords and asks them to empower the space. This Circle is our Demonosophy Demonic Circle.

*Notes*** If you feel called through to use different Dark Lords in your circle you can exchange the ones that we use for the ones that you are called to work with. In Demonosophy it is the technique that we strive to master, we strive to master technique and our own mental skills so that our spells become adaptable to our energies and therefore become empowered by the individual.*

The Circle is a magickal tool that raises the vibrations of the space and makes it easier to connect with the demon. It also can fill the space with demonic energies and make the space more comfortable for the demon that you are inviting over and seeking council with.

11a) There are two ways to position the candles for this circle. The first is, if you have room, place them in a circle around you. They will act as the physical parameter, in combination with the energetic parameter that you are calling forth. If you have the space you can lay out the candles like so.

Place Lord Azazel’s candle to the South.
Place Lord Lucifer’s Candle to the East.
Place Lord Beelzebub’s Candle to the North
Place Lord Leviathan’s Candle to the West
Place Lord Satan’s Candle in Center

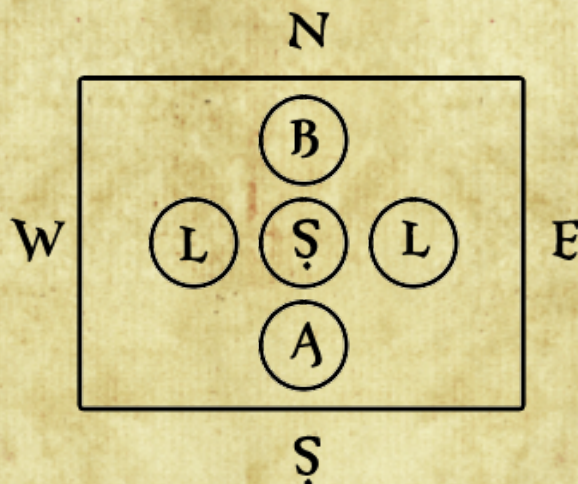

Make sure that you have enough room to place the candles safely around you. You will be placing 4 of the candles around you, and the Candle to Lord Satan in front of where you will be standing.

It should look something like this.

Şatan and Şunş/Şonş ~ The Démon Temple

11b) If you do not have the space you can set up an altar table for the casting. On a table place the candles in a circle, each demon's candle corresponding to their direction. Place Satan's in the centre. You can also add any offering or inspirations that you would like to the casting of this circle. The final altar should look something like this.

Şatan and Şunş/Şonş ~ The Démon Temple

12) Stand in your circle or before your altar and turn to the East. Light Lucifer's candle. Take a deep breath in and if you feel called, raise your hands and draw Lucifer's sigil in the air. In your mind see the night sky filled with starlight. The vast darkness of space and all the secrets it hides, silent, deadly, full of secrets lit by the stars, and say...

*I call to the sacred light
the light of the fallen angels
the light that sleeps within
The powers of the Fallen Angel Lucifer
I call to you
Lord of the inner light
Lord of guidance and empowerment
The free angel
guard to eastern gate
I invoke the morning star
I call you to this space.*

13) Turn and face south, light Azazel's candle. Take a deep breath in and if you feel called, raise your hands and draw Azazel's sigil in the air. In your mind envision the dark fires, the power of metal, the warlike passion of the flame. See the crimson red burning inside your soul, and say...

*"I call to the sacred realm of the desert,
The powers of the Demon God Azazel
I call to you.
The master of magic, mind power and focus,
the lord of passion,
The wild one of the desert,
guard the southern gate
I invoke the sacred fire.
I call you to this space"*

14) Turn and face west, light Leviathan's candle. Take a deep breath in and if you feel called, raise your hands and draw Leviathan's sigil in the air. In your mind see the swirling waters of the deep ocean, the blackness of the forbidden abyss and all its secrets. The hidden serenity of the deep, and say...

Satan and Suns/Sons ~ The Demon Temple

*"I call to the sacred realm of the dark Abyss,
The powers of the Great One Leviathan
I call to you.
The Lord of the Black Ocean
The master of emotions
The guardian of the secrets of the subconscious
guard the western gate
I invoke the dark water.
I call you to this space"*

15) Turn and face north, light Beelzebub's candle. Take a deep breath in and if you feel called, raise your hands and draw Beelzebub's sigil in the air. In your mind feel the energies of the dark twisted forest and all the power it hides, the mystical path that hides all the secrets of the body. The dark elements of nature, the evolved instincts and abilities to sense danger, and say...

*"I call to the sacred realm of the Ancient Earth
The powers of the Mighty Lord Beelzebub
I call to you.
The Powerful Demon warrior
The champion of battle
The warrior of flesh
guard the northern gate
I invoke the dark forest
I call you to this space"*

16) Return to the centre of your circle, or face your altar. Carefully light Lord Satan's candle. Take a deep breath in and if you feel called, raise your hands and draw Satan's sigil in the air. In your mind see the powerful protective energies of Lord Satan. The god of the lost and forgotten, the fallen, the unwanted.

He is the father of those who walk the solemn path, the father of those who carve their own way, who embrace their core selves and walk the road less traveled. Feel Lord Satan's power and say.

Sātān and Sūnṣ/Sōnṣ ~ The Dēmon Tēmplē

*I call to the demonic divine
The wise protection of Lord Satan
I call to you

The Father of all
The mighty warrior
